DETAILED ACTION

The response filed on 15 February 2007 has been entered and overcomes the rejections under 35 USC 102.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 85 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 85 recites the limitation "the electrically and thermally conductive layer" in lines 1-2 of the claim. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

2. Claims 79-84 are allowed.

The following is an examiner's statement of reasons for allowance: Please see Applicant's response, in particular, page 2, the third full paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments filed 2/15/2007 have been fully considered but they are not persuasive.

The Applicant has argued that since the claims have been copied from an issued patent, and that an indefinite rejection was not made at that time, then the claim is in acceptable form. The Examiner respectfully disagrees.

The Examiner respectfully points out that the search and rejections applied to each individual application are independent from each other.

Furthermore, it is not clear to the Examiner what exactly is being referred back to by the limitation. Is it the "thermally and electrically conductive material" or the "thermally conductive light absorbing layer", or both.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
